

Buckstones Primary School
Safeguarding and Child Protection Policy

Written and agreed by staff: December 2019
Adopted by Governors: February 2020

PHILOSOPHY:

To provide a fun, stimulating and excellent education which enables each child to achieve their full potential, academically, spiritually, emotionally and socially in a safe, environment.

Healthy School

Buckstones is a Healthy School with healthy attitudes embedded in the curriculum and extra-curricular activities. Children are encouraged to be active and maintain healthy relationships with their peers and adults as well as making other choices about healthy lifestyles.

1.0 INTRODUCTION

At Buckstones Primary School, the Governors and staff fully recognise the contribution the school makes to safeguarding children. We recognize that the safety and protection of all pupils is of paramount importance and that all staff, including volunteers, have a full and active part to play in protecting pupils from harm. We believe that the school should provide a caring, positive, safe and stimulating environment which promotes all pupils' social, physical, emotional and moral development.

This policy has been devised in accordance with Oldham Local Safeguarding Children's Board (LSCB) guidelines and with the following legislation and guidance:

- '[Working Together to Safeguard Children: A guide to inter-agency working to safeguard and promote the welfare of children](#)', DfE (2018)
- '[Keeping Children Safe in Education](#)', DfE (2019)
- '[Guidance for Safer Working Practices for Adults who work with Children and Young People in Education Settings](#)', Safer Recruitment Consortium (May 2019)
- '[What to do if you're worried a child is being abused](#)', DfE (March 2015)
- '[Information Sharing: Advice for practitioners](#)', DfE (July 2018)
- '[The Prevent duty: Departmental advice for schools and childcare providers](#)', DfE (2015)
 - '[Teaching online safety in school](#)' - DfE guidance (June 2019)

The terms "must" and "should" are used throughout the policy. The term "must" when the person in question is legally required to do something and "should" when the advice set out should be followed unless there is good reason not to.

2.0 PURPOSE AND AIMS:

The purpose of Buckstones Primary School's safeguarding policy is to ensure every child who is a registered pupil at our school is safe and protected from harm. This means we will always work to:

- Protect children and young people at our school from maltreatment;
- Prevent impairment of our children's and young people's health or development;

- Ensure that children and young people at our school grow up in circumstances consistent with the provision of safe and effective care;
- Undertake that role so as to enable children and young people at our school to have the best outcomes.

This policy applies to and gives clear direction to: staff, governors, volunteers, visitors and parents about expected behaviour and our legal responsibility to safeguard and promote the welfare of all children at our school.

Our school fully recognises the contribution it can make to protect children from harm and supporting and promoting the welfare of all children who are registered pupils at our school. The elements of our policy are prevention, protection and support.

We recognize that our safeguarding responsibilities are clearly linked to our responsibilities for ensuring that appropriate safeguarding responses are in place for children who are absent from school or who go missing from education. We also recognise that safeguarding against radicalisation and extremism is no different to safeguarding against any other vulnerability in today's society.

3.0 ROLES and RESPONSIBILITIES:

Safeguarding and promoting the welfare of children is defined as 'protecting children from maltreatment; preventing impairment of children's health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes.' (Keeping Children safe in education - statutory guidance for schools and colleges July 2019)

Named Personnel with designated responsibility for Safeguarding

Year	Designated Person for Safeguarding and Child Protection Prevent Lead. And for Looked After Children.	Deputy Designated Person for Safeguarding and Child Protection. And for Looked After Children.	Nominated Governor	Chair of Governors
2019-2020	Sarah Healey	Melanie Platt	Sue Gee and Danyel Dunkley	Steve Beckley

It is the responsibility of **every** member of staff, governor, volunteer and regular visitor to our school to ensure that they carry out the requirements of this policy and, at all times, work in a way that will safeguard and promote the welfare of all of the pupils at this school. This includes the responsibility to provide a safe environment in which children can learn.

Governing Body

The Governing Body takes **leadership** responsibility for their school's safeguarding arrangements.

They are accountable for ensuring the effectiveness of this policy and our compliance with it. Although our Governing Body takes collective responsibility to safeguard and promote the welfare of our pupils, we also have named Governors who champion safeguarding within the school.

The **Governing Body** will ensure that:

- the safeguarding policy is in place, is reviewed annually and is available on our school website;
- they have a named governor for child protection and safeguarding (Mrs Sue Gee and Mr Danyel Dunkley) and looked after children (Mrs Sue Gee and Mr Danyel Dunkley);
- a member of the senior leadership team is designated to take the lead responsibility for safeguarding and child protection and that there is an alternate member of staff identified to deal with any issues in the absence of the Designated Safeguarding Lead (DSL). There will always be cover for this role;
- all staff receive a copy of the Safeguarding and Child Protection Policy and the Guidance for safer working practice for those working with children and young people in education settings from the DfE;
- all staff undertake appropriate child protection training that is updated regularly;
- procedures are in place for dealing with allegations against members of staff and volunteers in line with statutory guidance;
- safer recruitment practices are followed in accordance with the requirements of 'Keeping Children Safe in Education' 2019 DfE;
- this policy and practice complements other policies e.g. anti-bullying including cyber bullying, health and safety, to ensure safeguarding.

Head teacher

The **Head teacher** will ensure that:

- the policies and procedures adopted by the *Governing Body* are followed by all staff;
- the policy will be updated annually, and be available on the school website;
- all staff be appropriately trained and a list of their safeguarding training dates is maintained;
- all staff and volunteers feel able to raise their concerns about poor and unsafe practice in regard of pupils, and such concerns are addressed in a timely manner in accordance with agreed policies;
- there is a designated person for Looked After Children (LAC) and an up to date list of children is regularly reviewed and updated. There is a named Governor for LAC;
- liaise with the Local Authority Designated Officer (LADO) in the event of an allegation of abuse being made against a member of staff;
- safer recruitment practices are followed and has the responsibility of verifying the identity, qualifications, suitability and DBS checks for all staff employed by school, Governors and volunteers;
- a Single Central Record is held in the Head's Office, and electronically, which includes all members of staff;
- with the support of the Site Manager and School Administrator ensures the safety and security of the school site and screening visitors in regards to the purpose of their visit.

The Designated Safeguarding Lead (DSL)

The Governing Body appoints the Safeguarding Lead for the school and this is always a senior member of staff. Miss Sarah Healey is the designated lead for child protection and Prevent. This is the single point of contact and concerns with regards to Prevent would be referred to this person and the lead. In her absence Miss Melanie Platt is the deputy designated lead for safeguarding.

The designated safeguarding lead (and any deputies) are most likely to have a complete safeguarding picture and be the most appropriate person to advise on the response to safeguarding concerns.

The Designated Safeguarding Lead(s) will carry out their role in accordance with the responsibilities outlined in Annex B of 'Keeping Children Safe in Education'. The DSL will provide advice and support to other staff on child welfare and child protection matters. Any concern for a child's safety or welfare will be recorded in writing and given to the DSL.

The DSL at Buckstones Primary School will represent our school at child protection conferences and core group meetings. Through appropriate training, knowledge and experience our DSL will liaise with Children's Services and other agencies where necessary, and make referrals of suspected abuse to Children's Services, take part in strategy discussions and other inter agency meetings and contribute to the assessment of children.

The DSL is responsible for ensuring that all staff members and volunteers are aware of our policy and the procedure they need to follow. They will ensure that all staff, volunteers and regular visitors have received appropriate child protection information during induction and relevant training as appropriate. All induction training for staff will include giving a copy of the following policies:

- the child protection policy;
- the behaviour policy;
- the staff behaviour policy (sometimes called a code of conduct);
- the safeguarding response to children who go missing from education, included in the Child Protection and Safeguarding Policy;
- the role of the designated safeguarding lead (including the identity of the designated safeguarding lead and any deputies); and
- copy of Part One of Keeping Children Safe in Education.

All volunteers are given:

- the child protection policy;
- a volunteer form to sign signposting them to who is the DSL and Deputy.

The DSL/Prevent Lead will ensure that:

- Concerns are recorded on Cpoms, even if there is no immediate need for referral; and monitored.
- All child protection records are marked as such and kept securely locked and accessible only by the head teacher/designated leads.
- Where children leave the school, the designated safeguarding lead should ensure their child protection file is transferred to the new school or college as soon as possible, ensuring secure transit, and confirmation of receipt should be obtained. For schools, this should be transferred separately from the main pupil file. Receiving schools and colleges should ensure key staff such as

designated safeguarding leads and SENCOs or the named person with oversight for SEN in a college, are aware as required.

- In addition to the child protection file, the designated safeguarding lead should also consider if it would be appropriate to share any information with the new school or college in advance of a child leaving. For example, information that would allow the new school or college to continue supporting victims of abuse and have that support in place for when the child arrives.
- Where verbal referrals are made to social care, the referral is confirmed in writing within 24 hours. Should a Prevent referral be made then an investigation/reflection will follow to identify and respond to any recommendations.

Teaching Staff, Support Staff and Volunteers

All staff and volunteers need to be alert to the signs of abuse as detailed in this policy. They should report any concerns immediately to Miss Healey or Miss Platt.

At Buckstones the responsibilities for teaching, non-teaching staff and volunteers;

- to know who the DSL is.
- refer to the signs of abuse outlined in the Department Of Education publication 'what to do if you're worried a child is being abused: advice for practitioners' March 2015 - see Appendix 2 for key extracts. In addition there is good advice provided on the NSPCC website.
- knowing what to look for is vital to the early identification of abuse and neglect. If staff members are unsure they should always speak to a Designated Safeguarding Lead. In exceptional circumstances, such as in an emergency or a genuine concern that appropriate action has not been taken, staff members can speak directly to Children's Social Care.
- undergo child protection training which is updated regularly, in line with advice from the LSCB.(Whole staff training every three years).
- maintain an attitude of 'it could happen here'.
- ensure that curriculum plans provide opportunities for children to develop their skills, knowledge and understanding of safe practices including esafety.

Attendance - All School Staff

- A child going missing from education is a potential indicator of abuse or neglect. All staff have a responsibility to alert the Designated Lead if a pupil goes missing from education.
- Going missing during the school day is an indicator of abuse including child sexual exploitation. All staff have a responsibility to alert the Designated Lead if a pupil goes missing during the school day.

4.0 WHAT SCHOOL STAFF SHOULD LOOK OUT FOR

4.1 Types of abuse

Extract from Keeping Children Safe in Education - Statutory guidance for schools and colleges - July 2019.

All staff should be aware that abuse, neglect and safeguarding issues are rarely stand alone events that can be covered by one definition or label. In most cases, multiple issues will overlap with one another.

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

In addition to being vigilant of the signs of neglect, sexual abuse and child exploitation, physical abuse and emotional abuse (see appendix 3) all staff should also understand the risks presented by:-

- Children missing from home or care
- Child sexual exploitation
- Bullying including cyber bullying
- Drugs
- Fabricated or induced illness

- Faith abuse
- Gangs and youth violence
- Gender based violence/violence against women and girls
- Mental illness
- Private fostering
- Radicalisation and extremism
- Peer on peer abuse including sexting
- Teenage relationship abuse
- Trafficking

Further information on these issues can be found on the NSPCC website and via the GOV.UK website.

Safeguarding incidents and/or behaviours can be associated with factors outside the school or college and/or can occur between children outside the school or college. All staff, but especially the designated safeguarding lead (and deputies) should be considering the context within which such incidents and/or behaviours occur. This is known as contextual safeguarding, which simply means assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare. Children's social care assessments should consider such factors so it is important that schools and colleges provide as much information as possible as part of the referral process. This will allow any assessment to consider all the available evidence and the full context of any abuse.

4.2 Specific safeguarding issues

All staff should have an awareness of safeguarding issues that can put children at risk of harm. Behaviours linked to issues such as drug taking, alcohol abuse, deliberately missing education and sexting (also known as youth produced sexual imagery) put children in danger.

4.2.1 Peer on Peer Abuse:

Staff must be aware that safeguarding issues can manifest themselves via peer on peer abuse. This is most likely to include, but not limited to:

- bullying (including cyberbullying);
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm;
- *sexual violence, such as rape, assault by penetration and sexual assault;
- *sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be stand-alone or part of a broader pattern of abuse;
- *upskirting, which typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm;
- sexting (also known as youth produced sexual imagery); and

- initiation/hazing type violence and rituals.

* (For further information see Annex A of KCSIE 2019)

Staff should recognise that children are capable of abusing their peers. Staff must challenge any form of derogatory and sexualised language or behaviour. Staff should be vigilant to sexualised/aggressive touching/grabbing. Behaviours by children should never be passed off as 'banter' or 'part of growing up'.

The DFE states 'peer on peer abuse should be taken as seriously as abuse by adults and should be subject to the same child protection procedures. Professionals should not dismiss abusive behaviour as normal between young people and should not develop high thresholds before taking action.'

Prevention of any Peer on Peer Abuse

As a school we will minimise the risk of allegations against other pupils by:-

- Providing a developmentally appropriate PSHE, RSE, SMSC and British Values curriculum which develops pupils understanding of acceptable behaviour and keeping themselves safe;
- Having a robust e-safety programme which develops pupils' knowledge, understanding and skills, to ensure personal safety and self-protection when using the internet and social networking;
- Having robust monitoring and filtering systems in place to ensure pupils are safe and act appropriately when using information technology in school;
- Having systems in place for any pupil to raise concerns with staff, knowing that they will be listened to, believed and valued;
- Delivering targeted work on assertiveness and keeping safe to those pupils identified as being at risk;
- Developing robust risk assessments and providing targeted work for pupils identified as being a potential risk to other pupils.

All concerns should be referred to the Designated Safeguarding Lead, using appendix 1 and the DSL should refer to the school's Anti-Bullying policy.

Victims of peer on peer harm should be supported by the school's pastoral system and referred to specialist agencies including, as examples, Social Care, Sexual Violence Specialists, CAMHs, Barnardo's. A written risk assessment may need to be in put place and will be reviewed regularly.

Perpetrators of peer on peer abuse will follow the same procedures outlined in the Anti-Bullying policy.

4.2.2 Self-Harm

If it comes to the attention of a member of staff that a child is self-harming, they should alert the Designated Person as soon as possible, who may take action by contacting the following:

- Parents or carers;
- Child Mental Health Services;
- Social Services, if the child meets the referral criteria;
- Early Help Team.

4.2.3 *Serious Violence

All staff should be aware of indicators, which may signal that children are at risk from, or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs.

* (For further information see Annex A of KCSIE 2019)

4.2.4 Female Genital Mutilation

All school staff are aware of the range of potential indicators that a girl may be at risk of FGM. Warning signs that FGM may be about to take place, or may have already taken place, can be found in the Multi-Agency Practice Guidelines - (see Appendix 4 for relevant extract.)

Whilst all staff should speak to the designated safeguarding lead (or deputy) with regard to any concerns about female genital mutilation (FGM), there is a specific legal duty on teachers. If a teacher, in the course of their work in the profession, discovers that an act of FGM appears to have been carried out on a girl under the age of 18, the teacher must report this to the police.

4.2.5 Forced Marriage

Forced Marriage became a criminal offence in June 2014. It is a form of child, adult and domestic abuse and, in line with statutory guidance, is treated as such by the School. The School is sensitive to differing family patterns and lifestyles and child-rearing patterns that vary across different racial, ethnic and cultural groups. However, child abuse cannot be condoned for religious or cultural reasons.

Information about Forced Marriage will be incorporated into staff safeguarding and child protection training and briefings and this Policy will be followed to protect a victim or potential victim of forced marriage. If a case of forced marriage is suspected it will be viewed as a safeguarding and child protection concern, and parents and carers will not be approached or involved about a referral to any External Agency.

4.2.6 Missing From Education

Children who go missing

All measures are taken to monitor attendance and provide guidance to all staff when a pupil is missing from education.

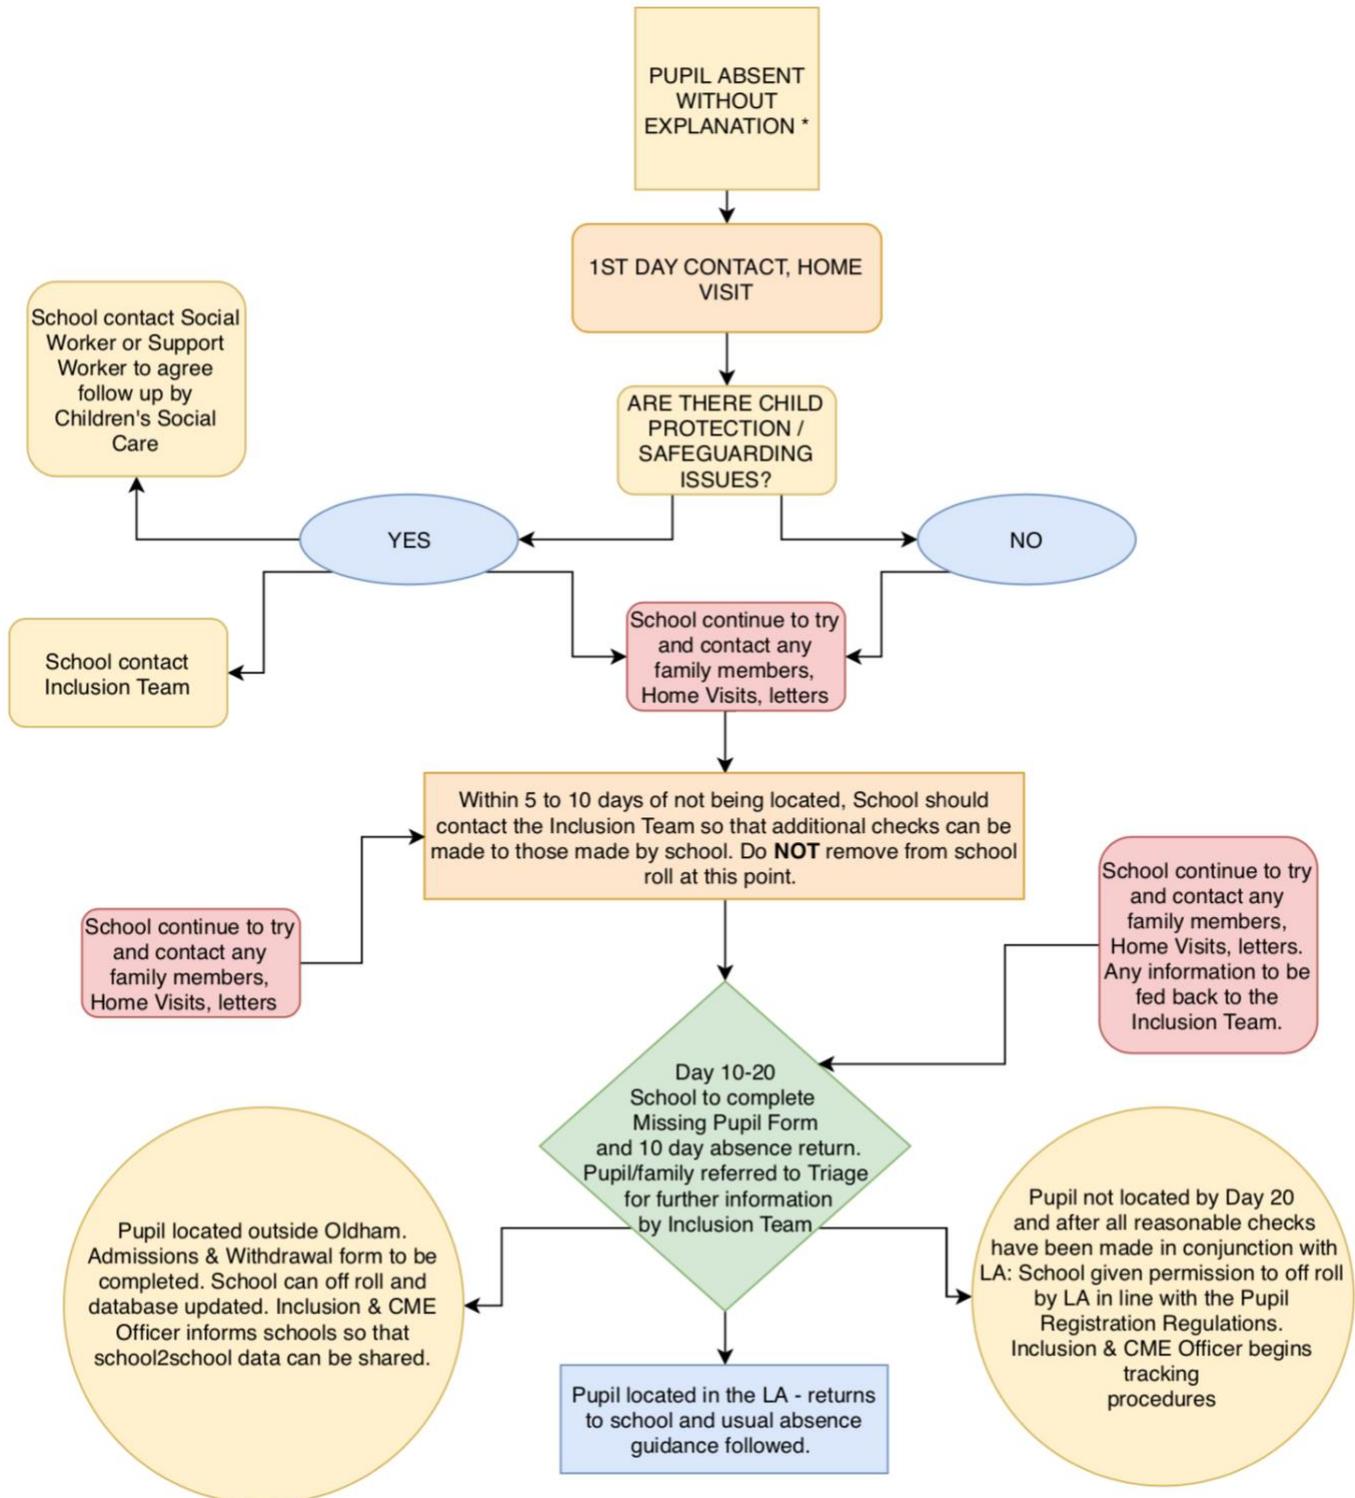

A child going missing from education is a potential indicator of abuse or neglect. The appropriate safeguarding procedures will be used for children who go missing from school, particularly on repeat occasions.

Staff are aware of potential triggers such as travelling to conflict zones, FGM, forced marriages etc.

If a child is failing to attend school regularly or has been absent without the school's permission for a continuous period of 10 school days, then the local authority will be notified of the absence.

The local authority will be notified when a pupil is deleted from the admission register / school register.

Guide to actions for a pupil whose whereabouts are unknown (Missing Pupils) - Code 2b

Early Help assessment / Social Care Referrals should also be considered when pupils have absences from school.

Following the completion of the above the Access Service will undertake the task of 'tracking' the pupil. This will include checks on benefits /council tax/ health etc. as well as contacting other boroughs. It is essential that the above process is completed before the missing pupil form is sent in.

Vulnerable Groups Officer (CME team) are on 0161 770 4201/3665 cme@oldham.gov.uk

Education Attendance Service (EAS team) are on 0161 770 6620 sais@oldham.gov.uk

5.0 CHILDREN WITH SPECIAL EDUCATIONAL NEEDS AND DISABILITIES

Children with special educational needs (SEN) and disabilities can face additional safeguarding challenges. The school treats pupils with SEN or disabilities with the same degree of professional concern accorded to non-SEND children. This means that safeguarding arrangements need to take into account a pupil's specific needs e.g. as set out in their education, health and care (EHC) plans or statements.

Staff should recognise that additional barriers can exist when recognising abuse and neglect in this group of children. These can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- the potential for children with SEN and disabilities being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs; and
- communication barriers and difficulties in overcoming these barriers.

It is particularly important that staff are aware of the different ways in which pupils with SEN or disabilities might try to express that something is wrong. For example, pupils (especially those who are non-verbal) may try to communicate a problem through art or music therapy, or sign language. For other pupils, changed or inappropriate behaviour may indicate that something is wrong. It is therefore important that staff know pupils well and are alert to these signs to ensure that problems are identified. Staff should also take into account what other pupils say about a pupil with SEN or a disability, as well as any known changes in a child's home circumstances.

6.0 LOOKED AFTER CHILDREN AND PREVIOUSLY LOOKED AFTER CHILDREN

We understand that the most common reason for children becoming looked after is as a result of abuse and/or neglect.

The designated teacher for Looked After Children is Miss Sarah Healey

The designated teacher will have the information they need in relation to a child's looked after legal status (whether they are looked after under voluntary arrangements with consent of parents or on an interim or full care order) and contact arrangements with birth parents or those with parental responsibility. We will also have information about the child's care arrangements and the levels of

authority delegated to the carer by the authority looking after him/her. The DSL will also have details of the child's social worker and the name of the virtual school head in Oldham Local Authority that looks after the child.

7.0 DISCRIMINATORY BEHAVIOUR

All Governors and staff recognise their duties under the equality Act 2010 to:

Eliminate discrimination, bullying and harassment aimed at protected characteristics as defined in the Act;

- Promote equality of access and opportunity within our school and within the wider community;
- Promote positive attitudes to difference and good relationships between people with different backgrounds, genders, cultures, faiths, abilities and ethnic origins.
- Repeated incidents that involve discriminatory behaviour or a single serious may lead to consideration under child protection procedures.

8.0 RADICALISATION/EXTREMISM-Further information on Preventing Radicalisation/Extremism

What is extremism? - Extremism is vocal or active opposition to fundamental, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. We also include in our definition of extremism: calls for the death of members of our armed forces, whether in this country or overseas. (Keeping children safe in education - Statutory guidance for schools and colleges July 2019). Extremism can be both violent and non-violent.

What is radicalisation? - Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism. (Keeping children safe in education - Statutory guidance for schools and colleges July 2019).

The link between radicalisation/extremism and safeguarding - Protecting children from the risk of radicalisation is part of schools' wider safeguarding duties, and is similar in nature to protecting children from other forms of harm and abuse. As with managing other safeguarding risks, staff should be alert to changes in student's behaviour which could indicate that they may be in need of help or protection. If staff have any concerns about a young person's safety they should speak to a Designated Lead.

8.1 Procedures in place for protecting students at risk of radicalisation

Teaching British Values within the curriculum

We teach a broad and balanced curriculum which promotes the spiritual, moral, cultural, mental and physical development of pupils and prepares them for the opportunities, responsibilities and experiences of life. We actively promote community cohesion and British Values across all curriculum areas including RE, PSHE, RSE and English.

Visiting speakers

All visiting speakers that visit school should be fully checked to ensure they are suitable. All staff who wish to invite visiting speakers into school must get permission from the Head teacher or Deputy Head

teacher who will ensure necessary checks are carried out. All visiting speakers must be supervised by at least one member of school staff.

After School Activities

All afterschool activities and groups must have approval from the Head teacher or Deputy Head teacher, and have relevant certificates of training and/or qualifications and DBS checks.

IT

Our internet controls in school ensure all students are safe from terrorist and extremist material when accessing the internet in school.

Our E-safety education with pupils, parents and staff includes the risks of online radicalisation.

Staff Training

Understanding the risk factors and signs of radicalisation is part of the ongoing safeguarding training of all staff. The Designated Safeguarding Lead has had Prevent Awareness Training and is able to provide advice and support to other members of staff on protecting children from the risk of radicalization.

Where we have concerns

If we have safeguarding concerns regarding a young person the Designated Safeguarding Leads will make an appropriate referral. This could include a referral to Channel or Children's Social Care. The same procedures would apply if concerns were raised about parents, staff or Governors and a referral would be made to Channel, HR, LA and Social Services.

9.0 CHILD SEXUAL EXPLOITATION

School staff are made aware of the signs of child sexual exploitation. (See extract from 'It's not okay' 2014 Appendix 5.)

Attendance is closely monitored and all staff understand that pupils who go missing from education are potentially vulnerable to CSE and therefore should be reported to the Safeguarding Lead.

10.0 ON-LINE SAFETY

The use of technology has become a significant component of many safeguarding issues. Child sexual exploitation; radicalisation; sexual predation: technology often provides the platform that facilitates harm. At Buckstones we have an effective approach to online safety which educates the whole school community in their use of technology and we have robust systems in place to identify, intervene in and escalate any incident as appropriate.

At Buckstones we recognise that there are three main areas which can place our pupils at risk:

- content: being exposed to illegal, inappropriate or harmful material;
- contact: being subjected to harmful online interaction with other users; and
- conduct: personal online behaviour that increases the likelihood of, or causes, harm.

To ensure that we are doing all that we reasonably can to limit children's exposure to the above risks we have appropriate filters and monitoring systems in place. At Buckstones we do not permit the use of personal mobile technology such as mobile phones. In addition we actively promote and teach on line safety in a variety of ways as part of providing a broad and balanced curriculum. This includes covering relevant issues through personal, social, health and economic education (PSHE), and Relationships, Sex Education (RSE) We also take part in an annual e-safety week to teach pupils how to stay safe online.

Staff are regularly updated and undergo safeguarding training including, online safety training.

11.0 CHILD PROTECTION PROCEDURES

Our school procedures for safeguarding children are in line with Oldham LSCB child **protection procedures**.

11.1 How staff should respond to a child protection concern

Any member of staff, volunteer or visitor to the school who receives a disclosure of abuse, an allegation or suspects that the abuse may have occurred must report it immediately to the appropriate Designated Safeguarding Lead. This initial concern should be done verbally on the same day that the concern arises. This should then be followed up by a written witness statement on Cpoms.

All staff can make referrals of suspected abuse to the appropriate Local Authority Children's Social Care or police if they feel this is necessary.

11.2 Early Help

All school staff should be prepared to identify children who may benefit from early help. Early Help means providing support as soon as a problem emerges at any point in a child's life, from the foundation years through to the years. In the first instance, staff should discuss early help requirements with the designated safeguarding lead. If Early Help is appropriate, the designated safeguarding lead (or deputy) will generally lead on liaising with other agencies and setting up an inter-agency assessment as appropriate. Staff may be required to support other agencies and professionals in an early help assessment, in some cases acting as the lead practitioner. Any such cases should be kept under constant review and consideration given to a referral to children's social care for assessment for statutory services, if the child's situation does not appear to be improving or is getting worse.

Any child may benefit from early help, but all school staff should be particularly alert to the potential need for early help for a child who:

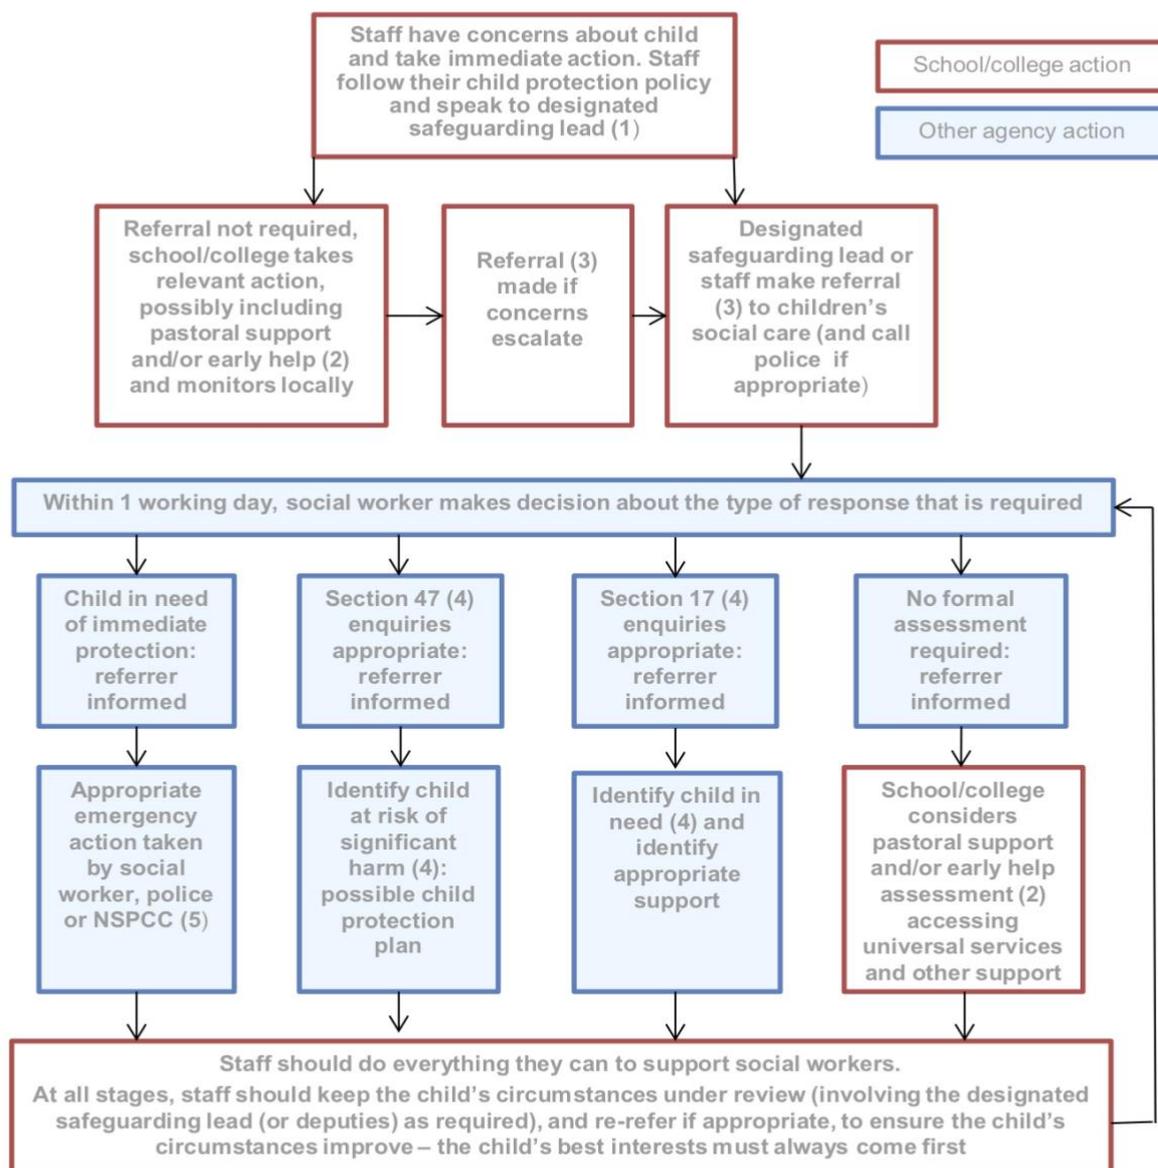

- is disabled and has specific additional needs;
- has special educational needs (whether or not they have a statutory Education, Health and Care Plan);
- is a young carer;
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups;
- is frequently missing/goes missing from care or from home;
- is at risk of modern slavery, trafficking or exploitation;
- is at risk of being radicalised or exploited;
- is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues and domestic abuse ;
- is misusing drugs or alcohol themselves;
- has returned home to their family from care;

- is a privately fostered child.

11.3 Actions of the Designated Safeguarding Lead

The Designated Safeguarding Lead will assess any child protection concerns using the following flow chart from 'Keeping Children Safe in Education. 2019'

Actions where there are concerns about a child

(1) In cases which also involve a concern or an allegation of abuse against a staff member, see Part four of this guidance.

(2) Early help means providing support as soon as a problem emerges at any point in a child's life. Where a child would benefit from co-ordinated early help, an early help inter-agency assessment should be arranged. Chapter one of [Working Together to Safeguard Children](#) provides detailed guidance on the early help process.

(3) Referrals should follow the process set out in the local threshold document and local protocol for assessment. Chapter one of [Working Together to Safeguard Children](#).

(4) Under the Children Act 1989, local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989. Under section 47 of the Children Act 1989, where a local authority has reasonable cause to suspect that a child is suffering or likely to suffer significant harm, it has a duty to make enquiries to decide whether to take action to safeguard or promote the child's welfare. Full details are in Chapter one of [Working Together to Safeguard Children](#).

(5) This could include applying for an Emergency Protection Order (EPO).

If it is decided that a referral is necessary the Safeguarding Lead will immediately refer cases of suspected abuse or allegation to the Multi-Agency Safeguarding Hub (MASH team) on tell: 0161 770 7777. A telephone referral should be followed by a written record of the referral which will be emailed to the MASH team (using the LSCB multi-agency referral form) as soon as possible and within the school day. <http://www.oldham.gov.uk/lscb/info/4/referralsandassessments>

If students are from out of borough then the relevant Social Services Safeguarding Team will be contacted.

11.4 Sharing information with parents

The school will always undertake to share information with parents/carers where there is an intention to refer a child to statutory services unless to do so could place the child/ young person at greater risk or harm or impede an investigation by statutory services. (See LSCB Guide to 'Making a Child Protection Referral').

12.0 WHAT TO DO IF A PUPIL TALKS TO YOU ABOUT ABUSE

It should be recognised that a child or young person may seek you out to share information about abuse or neglect, or talk spontaneously individually or in group when you are present.

In these situations you should:

- Listen carefully to the student; do not directly question them.
- Allow the pupil the time to give an account; do not stop a pupil from recalling events.
- Make an accurate record of concerns using the school cause for concern sheet (see appendix 1).
- Reassure the student that they were right to tell.
- Explain that you cannot promise not to speak to others, but will only pass on the information to those who need to know.
- Pass the concern directly to the Designated Safeguarding lead.

If, at any point, there is a risk of immediate serious harm to a child a referral should be made to children's social care immediately. Anybody can make a referral.

13.0 RECORD KEEPING

Any members of staff receiving a disclosure of abuse or noticing signs or indicators of abuse, must make an accurate record as soon as possible noting what was said or seen, putting the event in context, and saving the date, time and location. All records of concerns or disclosures of abuse should be made using cpoms. If it is an observation of bruising or an injury try to record detail, e.g. "right arm above elbow", **Do not take photographs!**

All safeguarding records are kept confidentially and securely. They are kept separate from pupil records.

An indication of further record keeping is marked on pupil records. If a pupil transfers from the school those files will be copied and forwarded within five working days to the pupil's new school, marked confidential and for the attention of the receiving school's designated safeguarding lead person.

Confidentiality

The personal information about all pupils' families is regarded by those who work in this school as confidential. All staff and volunteers need to be aware of the confidential nature of personal information and will aim to maintain this confidentiality.

14.0 OPPORTUNITIES TO TEACH SAFEGUARDING

As part of providing a broad and balanced curriculum we teach all pupils about safeguarding. This is done through a range of subjects including PSHE, RSE and IT. This includes teaching pupils about responsible and safe use of the internet and social media. It also includes guidance and support on developing healthy relationships. As part of developing a healthy, safer lifestyle, pupils are taught to, for example:

- safely explore their own and others' attitudes.
- develop a trusting climate so that children feel able to talk and share their thoughts and feelings.
- recognize and manage risks in different situations and how to behave responsibly.
- judge what kind of physical contact is acceptable and unacceptable.
- recognize when pressure from others (including people they know) threatens their personal safety and well-being and develop effective ways of resisting pressure.
- including knowing when and where to get help.
- E-Safety

15.0 TRAINING AND SUPPORT

The Head teacher and all other staff who work with children will undertake appropriate child protection awareness training to equip them to carry out their responsibilities for child protection effectively, that is kept up to date by refresher training at 'regular' intervals as set out in "Keeping Children Safe in Education" 2019. All staff should read at least part one of Keeping Children Safe in Education 2019 -this is displayed in the staffroom.

The school will ensure that the designated persons undertake refresher safeguarding training.

All staff (including governors) will receive child protection/safeguarding training when first appointed as part of their induction.

We recognize that staff working in school who may have become involved with a child who has suffered harm or appears likely to suffer harm may find the situation upsetting. We will support such staff by

providing an opportunity to talk through their anxieties with the Designated Safeguarding Lead and to seek further support if required.

16.0 ALLEGATIONS AGAINST A MEMBER OF STAFF OR VOLUNTEER

There is an LSCB procedure for investigating allegations of professional abuse. Issues of concerns should be reported to the Head teacher or the next most senior member of staff who should contact the Local Authority Designated Officer (LADO) TEL: 0161 770 8870. In the event of an allegation of abuse being made against the Head teacher, allegations should be reported directly to the Chair of Governors.

All staff should be aware of their duty to raise concerns about the attitude or actions of colleagues. See the school's whistle blowing policy and safer working practices policy.

17.0 SAFER WORKING PRACTICE

We understand that staff should have access to advice on the boundaries of appropriate behaviour. The document "Guidance for Safer Working Practice for Adults who work with Children and Young People" (DFE Oct 2015) provides advice on this and circumstances which should be avoided in order to limit complaints against staff of abuse, and/or allegations of physical or sexual abuse. These matters are referred to in the School's Safer Working Practice Policy.

This school is committed to safer recruitment and the suitability of all staff at the school. The Head teacher and Governors have undertaken approved safer recruitment training in line with statutory requirements.

School ensures that there is safe practice followed in checking the suitability of staff to work at the school. All school staff, Governors and volunteers have undertaken an enhanced DBS check. School ensures that visitors or contractors who visit the school premises are appropriately 'risk assessed'. The identity of visitors/contractors are checked on arrival. School seeks assurances from employers that visitors/contractors have undergone a DBS check where appropriate, and for those, for whom a DBS check has not been undertaken, are supervised.

If school has concerns about an existing staff member's suitability to work with children, school should carry out all relevant checks as if the person were a new member of staff.

School has a legal duty to refer to the DBS anyone who has harmed, or poses a risk of harm, to a child or vulnerable adult where:

- **the harm test is satisfied in respect of that individual;**
- **the individual has received a caution or conviction for a relevant offence, or if there is reason to believe that the individual has committed a listed relevant offence; and**
- **the individual has been removed from working (paid or unpaid) in regulated activity would have been removed had they not left.**

Under the regulations in the Disqualification from Childcare Act 2018, schools are no longer required to establish whether a member of staff providing, or employed to work in, childcare is disqualified by

association. Regulation 9 does not apply to staff in a school setting; disqualification by association is only relevant where childcare is provided in domestic settings (e.g. where childminding is provided in the home) or under registration on domestic premises. Accordingly, we will not ask staff questions about cautions or convictions of someone living or working in their household.

However in support of this amendment we will take every opportunity to create the right culture and environment so that staff feel comfortable, where it is appropriate, to discuss matters outside of work, which may have implications for the safeguarding of children in the workplace. For example through appraisal, or other staff discussions. Staff should feel able to discuss issues where their relationships and associations both within and outside of the workplace (including online) may have implications for the safeguarding of children in school. These discussions will help us to safeguard our employees' welfare and contribute to our duty of care towards our staff. Where appropriate, it will help us to identify whether arrangements are needed to support these staff. These discussions can also help us to manage children's safety, providing them with information that will help them consider whether there are measures that need to be put in place to safeguard children (e.g. by putting arrangements in place to stop or restrict a person coming into school where a potential risk to children has been identified). The school will always refer to the Lado where there is any cause for concern or need for further advice.

Photographing and Videoing

The school has a School Photography Statement which outlines for staff and parents the school policy with regard to the taking of photographs and digital images. Staff are only permitted to take photographs in 'school or educational provision settings' and may only use school approved cameras and/or media. Full parental consent is sought at the beginning of school for their child to be photographed or videoed for school purposes, publicity and/or use on the school web site. Parents are permitted to take photographs at school events such as Nativity performances and Sports Day but are reminded of their responsibilities with regard to their safe use and circulation.

18.0 WHISTLEBLOWING

What school or college staff should do if they have concerns about safeguarding practices within the school or college?

All staff and volunteers should feel able to raise concerns about poor or unsafe practice and potential failures in the school's or college's safeguarding regime, and know that such concerns will be taken seriously by the senior leadership team.

Where a staff member feels unable to raise an issue with their employer, or feels that their genuine concerns are not being addressed they should refer to the school's Whistleblowing Policy.

Other whistleblowing channels are open to them:

- general guidance on whistleblowing can be found via: Advice on Whistleblowing; and

• the NSPCC's what you can do to report abuse dedicated helpline is available as an alternative route for staff who do not feel able to raise concerns regarding child protection failures internally or have concerns about the way a concern is being handled by their school or college. Staff can call 0800 028 0285 - line is available from 8:00 AM to 8:00 PM, Monday to Friday and email: help@nspcc.org.uk.

19.0 LINKS TO OTHER POLICIES

This policy should be read in conjunction with other related school policies and procedures:

- Anti-Bullying Policy
- Behaviour Policy, including violence and aggression
- First Aid and Medicine Policies
- Health and Safety Policy
- PSHE Policy
- Relationships, Sex Education Policy
- Safer Recruitment and Working Policies
- Single Equality Policy
- E- Safety Policy which includes [Teaching online safety in school](#) - DfE guidance.
- Confidentiality Policy
- EVC Policy
- Whistleblowing Policy

20.0 OPERATION ENCOMPASS

Our school is part of Operation Encompass. This is a police and education early intervention safeguarding partnership which supports children and young people who experience Domestic Abuse.

Operation Encompass means that the police will share information about Domestic Abuse incidents with our school PRIOR to the start of the next school day when they have been called to a domestic incident.

Once a Key Adult (DSL) has attended at an Operation Encompass briefing they will cascade the principles of Operation Encompass to all DDSL's.

Our Key Adults are: Sarah Healey and Melanie Platt.

Our parents are fully aware that we are an Operation Encompass school.

The Operation Encompass information is stored in line with all other confidential safeguarding and child protection information.

The Key Adult has also led training for all school staff and Governors about Operation Encompass, the prevalence of Domestic Abuse and the impact of this abuse on children. We have also discussed how we can support our children following the Operation Encompass notification.

We are aware that we must do nothing that puts the child/ren or the non-abusing adult at risk.

The Safeguarding Governor will report on Operation Encompass in the termly report to Governors. All information is anonymised for these reports.

The Key Adult has used the Operation Encompass Toolkit to ensure that all appropriate actions have been taken by the school.

(See Appendix 1).

21.0 DATA PROTECTION - Managing and Storing Information

Staff should not assume a colleague or another professional will take action and share information that might be critical in keeping children safe. They should be mindful that early information sharing is vital for effective identification, assessment and allocation of appropriate service provision. Information Sharing: Advice for Practitioners Providing Safeguarding Services to Children, Young People, Parents and Carers supports staff who have to make decisions about sharing information. This advice includes the seven golden rules for sharing information and considerations with regard to the Data Protection Act 2018 and General Data Protection Regulation (GDPR). If in any doubt about sharing information, staff should speak to the designated safeguarding lead or a deputy. Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare, and protect the safety, of children. However, in a situation where a child is in a refuge, this could mean that schools can withhold education data under the GDPR where the serious harm test (see ICO) is satisfied.

The procedures and practice created by this policy have been reviewed in the light of our Data Protection Policy.

All documents stored are in accordance with legal requirements where appropriate, and guidance from the Records Management Toolkit for Schools.

- a) All safeguarding records are kept confidentially and securely in the Head teacher's office and are kept separate from pupil records, with a front sheet listing dates and a brief entry to provide a chronology.
- b) If a pupil transfers from the school those files will be copied and forwarded within five working days to the pupil's new school marked confidential and for the attention of the receiving school's designated safeguarding lead person.
- c) All safeguarding records for pupils will be retained for DoB +25 years and then securely disposed (documents must be shredded)

d) Any allegations against staff will be retained until the staff member retires or 10 years from the allegation. Any malicious allegations must be removed. All documents should be securely disposed (documents must be shredded)

Reference should be made to each related policies for specific details on how information is managed and store in this area.

This policy:

Has Few / No Data Compliance Requirements	Has A Moderate Level of Data Compliance Requirements	Has a High Level Of Data Compliance Requirements
		✓

This policy will be reviewed on an annual basis or earlier if legislation should change

Definitions and signs of Abuse

(Extracts from Department Of Education publication 'what to do if you're worried a child is being abused: advice for practitioners' March 2015)

There are a number of warning indicators which might suggest that a child may be being abused or neglected.

Some of the following signs might be indicators of abuse or neglect:

- Children whose behaviour changes - they may become aggressive, challenging, disruptive, withdrawn or clingy, or they might have difficulty sleeping or start wetting the bed;
- Children with clothes which are ill-fitting and/or dirty;
- Children with consistently poor hygiene;
- Children who make strong efforts to avoid specific family members or friends, without an obvious reason;
- Children who don't want to change clothes in front of others or participate in physical activities;
- Children who are having problems at school, for example, a sudden lack of concentration and learning or they appear to be tired and hungry;
- Children who talk about being left home alone, with inappropriate carers or with strangers;
- Children who reach developmental milestones, such as learning to speak or walk, late, with no medical reason;
- Children who are regularly missing from school or education;
- Children who are reluctant to go home after school;
- Children with poor school attendance and punctuality, or who are consistently late being picked up;
- Parents who are dismissive and non-responsive to practitioners' concerns;
- Parents who collect their children from school when drunk, or under the influence of drugs;
- Children who drink alcohol regularly from an early age;
- Children who are concerned for younger siblings without explaining why;
- Children who talk about running away; and
- Children who shy away from being touched or flinch at sudden movements.

Physical abuse is deliberately physically hurting a child. It might take a variety of different forms, including hitting, pinching, shaking, throwing, poisoning, burning or scalding, drowning or suffocating a child.

Physical abuse can happen in any family, but children may be more at risk if their parents have problems with drugs, alcohol and mental health or if they live in a home where domestic abuse happens. Babies and disabled children also have a higher risk of suffering physical abuse.

Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child. Physical abuse can also occur outside of the family environment.

Some of the following signs may be indicators of physical abuse:

- children with frequent injuries;
- children with unexplained or unusual fractures or broken bones; and
- children with unexplained:
 - bruises or cuts;
 - burns or scalds; or
 - bite marks.

Emotional abuse is the persistent emotional maltreatment of a child. It is also sometimes called psychological abuse and it can have severe and persistent adverse effects on a child's emotional development.

Although the effects of emotional abuse might take a long time to be recognisable, practitioners will be in a position to observe it, for example, in the way that a parent interacts with their child. Emotional abuse may involve deliberately telling a child that they are worthless, or unloved and inadequate. It may include not giving a child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate.

Emotional abuse may involve serious bullying - including online

bullying through social networks, online games or mobile phones - by a child's peers.

Some of the following signs may be indicators of emotional abuse:

- Children who are excessively withdrawn, fearful, or anxious about doing something wrong;
- Parents or carers who withdraw their attention from their child, giving the child the 'cold shoulder';
- Parents or carers blaming their problems on their child; and
- Parents or carers who humiliate their child, for example, by name-calling or making negative comparisons.

Sexual abuse is any sexual activity with a child. You should be aware that many children and young people who are victims of sexual abuse do not recognise themselves as such. A child may not understand what is happening and may not even understand that it is wrong. Sexual abuse can have a long-term impact on mental health.

Sexual abuse may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can commit acts of sexual abuse, as can other children.

Some of the following signs may be indicators of sexual abuse:

- Children who display knowledge or interest in sexual acts inappropriate to their age;
- Children who use sexual language or have sexual knowledge that you wouldn't expect them to have;
- Children who ask others to behave sexually or play sexual games; and
- Children with physical sexual health problems, including soreness in the genital and anal areas, sexually transmitted infections or underage pregnancy.

Child sexual exploitation is a form of sexual abuse where children are sexually exploited for money, power or status. It can involve violent, humiliating and degrading sexual assaults.

In some cases, young people are persuaded or forced into exchanging sexual activity for money, drugs, gifts, affection or status. Consent cannot be given, even where a child may believe they are voluntarily engaging in sexual activity with the person who is exploiting them. Child sexual exploitation doesn't always involve physical contact and can happen online. A significant number of children who are victims of sexual exploitation go missing from home, care and education at some point.

Some of the following signs may be indicators of sexual exploitation:

- Children who appear with unexplained gifts or new possessions;
- Children who associate with other young people involved in exploitation;
- Children who have older boyfriends or girlfriends;
- Children who suffer from sexually transmitted infections or become pregnant

Children who suffer from changes in emotional well-being;

- Children who misuse drugs and alcohol;
- Children who go missing for periods of time or regularly come home late; and

- Children who regularly miss school or education or don't take part in education

Neglect is a pattern of failing to provide for a child's basic needs, whether it be adequate food, clothing, hygiene, supervision or shelter. It is likely to result in the serious impairment of a child's health or development.

Children who are neglected often also suffer from other types of abuse. It is important that practitioners remain alert and do not miss opportunities to take timely action. However, while you may be concerned about a child, neglect is not always straightforward to identify.

Neglect may occur if a parent becomes physically or mentally unable to care for a child. A parent may also have an addiction to alcohol or drugs, which could impair their ability to keep a child safe or result in them prioritising buying drugs, or alcohol, over food, clothing or warmth for the child. Neglect may occur during pregnancy as a result of maternal drug or alcohol abuse.

Some of the following signs may be indicators of neglect:

- Children who are living in a home that is indisputably dirty or unsafe;
- Children who are left hungry or dirty;
- Children who are left without adequate clothing, e.g. not having a winter coat;
- Children who are living in dangerous conditions, i.e. around drugs, alcohol or violence;
- Children who are often angry, aggressive or self-harm;
- Children who fail to receive basic health care⁴; and
- Parents who fail to seek medical treatment when their children are ill or are injured.

Appendix 3

IDENTIFYING GIRLS AND WOMEN AT RISK

Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a girl or woman being at risk of FGM, or already having undergone FGM. There are a range of potential indicators that a child or young person may be at risk of FGM, which individually may not indicate risk but if there are two or more indicators present this could signal a risk to the child or young person.

Victims of FGM are likely to come from a community that is known to practise FGM - see Section 2.5 for the nationalities that traditionally practise FGM.

Provided that the mutilation takes place in the UK, the nationality or residence status of the victim is irrelevant.

Professionals should also note that the girls and women at risk of FGM may not yet be aware of the practice or that it may be conducted on them, so sensitivity should always be shown when approaching the subject.

SPECIFIC FACTORS THAT MAY HEIGHTEN A GIRL'S OR WOMAN'S RISK OF BEING AFFECTED BY FGM

There are a number of factors in addition to a girl's or woman's community or country of origin that could increase the risk that she will be subjected to FGM:

The position of the family and the level of integration within UK society - it is believed that communities less integrated into British society are more likely to carry out FGM.

Any girl born to a woman who has been subjected to FGM must be considered to be at risk of FGM, as must other female children in the extended family.

Any girl who has a sister who has already undergone FGM must be considered to be at risk of FGM, as must other female children in the extended family.

Any girl withdrawn from Personal, Social and Health Education or Personal and Social Education may be at risk as a result of her parents wishing to keep her uninformed about her body and rights.

INDICATIONS THAT FGM MAY BE ABOUT TO TAKE PLACE SOON

The age at which girls undergo FGM varies enormously according to the community. The procedure may be carried out when the girl is newborn, during childhood or adolescence, at marriage or during the first pregnancy. However, the majority of cases of FGM are thought to take place between the ages of 5 and 8 and therefore girls within that age bracket are at a higher risk.

It is believed that FGM happens to British girls in the UK as well as overseas (often in the family's country of origin). Girls of school age who are subjected to FGM overseas are thought to be taken abroad at the start of the school holidays, particularly in the summer holidays, in order for there to be sufficient time for her to recover before returning to her studies.

There can also be clearer signs when FGM is imminent:

It may be possible that families will practise FGM in the UK when a female family elder is around, particularly when she is visiting from a country of origin.

A professional may hear reference to FGM in conversation, for example a girl may tell other children about it.

A girl may confide that she is to have a 'special procedure' or to attend a special occasion to 'become a woman'.

A girl may request help from a teacher or another adult if she is aware or suspects that she is at immediate risk.

Parents state that they or a relative will take the child out of the country for a prolonged period.

A girl may talk about a long holiday to her country of origin or another country where the practice is prevalent.

Parents seeking to withdraw their children from learning about FGM.

INDICATIONS THAT FGM MAY HAVE ALREADY TAKEN PLACE

It is important that professionals look out for signs that FGM has already taken place so that:

the girl or woman affected can be supported to deal with the consequences of FGM

enquiries can be made about other female family members who may need to be safeguarded from harm.

criminal investigations into the perpetrators, including those who carry out the procedure, can be considered to prosecute those breaking the law and to protect others from harm.

There are a number of indications that a girl or woman has already been subjected to FGM:

A girl or woman may have difficulty walking, sitting or standing and may even look uncomfortable.

A girl or woman may spend longer than normal in the bathroom or toilet due to difficulties urinating.

A girl may spend long periods of time away from a classroom during the day with bladder or menstrual problems.

A girl or woman may have frequent urinary, menstrual or stomach problems.

There may be prolonged or repeated absences from school or college.

A prolonged absence from school or college with noticeable behaviour changes (e.g. withdrawal or depression) on the girl's return could be an indication that a girl has recently undergone FGM.

A girl or woman may be particularly reluctant to undergo normal medical examinations.

A girl or woman may confide in a professional.

A girl or woman may ask for help, but may not be explicit about the problem due to embarrassment or fear.

A girl may talk about pain or discomfort between her legs.

Appendix 4

<http://www.itsnotokay.co.uk>

Child Sexual Exploitation Warning signs that all staff and students should be mindful of:-

There is no stereotypical victim of exploitation, but these warning signs are an indication that a child may be being exploited:

- Regularly missing from home or school and staying out all night
- Change in behaviour - becoming aggressive and disruptive or quiet and withdrawn
- Unexplained gifts or new possessions such as clothes, jewellery, mobile phones or money that can't be accounted for
- A significantly older 'boyfriend' or 'friend' or lots of new friends
- Spending excessive amounts of time online or on their mobile and becoming increasingly secretive about this activity
- Student involvement in criminal behaviour or increased offending
- Sexual health problems
- Changes in physical appearance.
