

1) a) shaded = 36 hundredths =  $\frac{36}{100}$   
 not shaded = 64 hundredths =  $\frac{64}{100}$   
 $\frac{36}{100} + \frac{64}{100} = 1$  whole  
 $0.36 + 0.64 = 1$

b) shaded = 52 hundredths =  $\frac{52}{100}$   
 not shaded = 48 hundredths =  $\frac{48}{100}$   
 $\frac{52}{100} + \frac{48}{100} = 1$  whole  
 $0.52 + 0.48 = 1$

2)

3)

1) a) Multiple possible answers, including:

b) Multiple possible answers, including:

- 2) a) Incorrect. Statement such as 'I need to add 0.84 to 0.16 to make a whole.'  
 b) Correct.
- 3) No. £1.35 and £0.25 makes £1.60. This means there is only £0.40 left from £2. There is not enough money to buy the ruler costing £0.45.

1) Multiple answers possible:

For example:

- a)  $0.45\text{m} + 0.55\text{m} = 1\text{m}$   
 b)  $0.45\text{m} + 0.15\text{m} + 0.15\text{m} + 0.25\text{m} = 1\text{m}$   
 c)  $0.65\text{m} + 0.65\text{m} + 0.15\text{m} + 0.55\text{m} = 2\text{m}$   
 d)  $0.45\text{m} + 0.55\text{m} + 0.35 + 0.65\text{m} = 2\text{m}$

2)  $0.27\text{kg} + 0.27\text{kg} + 0.27\text{kg} = 0.81\text{kg}$

Yes there is enough flour to bake 3 pies.

$$1\text{kg} - 0.81\text{kg} = 0.19\text{kg}$$

There will be 0.19kg left.
