Teaching notes - instructions

Real or fake

Print and laminate the spaceship, black hole and alien word cards.

Choose an alien card. If it is a real word, put it in the space ship. If it is a fake word put it in the black hole.

Extension: Children work with a partner. The first child chooses a card and reads it to their partner without showing them. The first child announces whether it is a fake word or a real word. If it is fake, they keep it. If it is real and the partner can spell it, the partner keeps it. If not, the first child keeps it. Children continue by taking turns. The winner has the most cards once all have been read.

Speed read game

Place all the alien cards on the table in front of you. Pick them one at a time and read them. If it's a real word, write it in the space ship. If it is a fake word write it in the black hole. Children could try turning the cards face down and writing the words from memory. They could then write five sentences with the real word.
